

Alternative Investor Programme

Invest in alternative
trading strategies

Risk warning: CFDs are complex instruments and come with a high risk of losing money rapidly due to leverage. 33% of retail investor accounts lose money when trading CFDs. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

Trading carries a high level of risk to your capital and is not suitable for all investors. Leveraged products are used and should be fully understood. Past performance is not necessarily indicative of future results. There can be no assurance that historical or hypothetical returns will be realised and actual returns or performance may materially differ from that set forth. Clients are recommended to seek independent advice on derivatives trading from an appropriately authorised advisor before commencing any leveraged trading activity. There is a substantial risk of loss in trading. This document is not a financial promotion or offer or inducement to acquire any securities or exercise any rights in relation to securities.

The Alternative Investor Programme

Blackwell Global's Alternative Investor Programme provides investors with a solution to allocate capital directly into a wide range of trading strategies.
